- ♥ 12,415 KITCHEN TABLES
- ♥ 20,496 LAMPS
- ♥ 37,746 MATTRESSES
- ♥ 12,448 BED FRAMES

3 AM

It can feel like the loneliest time in the world. That's when my heart seems to tell me exactly how it feels.

It'll wake me up when everyone is dreaming. No distractions because the entire world is sleeping.

It reminds me why it's important, the work that we do. That at any moment a life can change on a dime.

I think that this campaign has tugged at my heart for so long - 3 years to date of these 3 am moments because I have never shared my personal testimony.

I have encountered God's relentless, steadfast, unfailing, and merciful love over and over again. He saved me from myself and every day I see a small pieces of my life in so many of the lives that we change every day.

The eleven-year-old girl without a mother.

The scared teenage pregnancy.

The woman who has suffered job loss and career change.

The person whose parents have never been fiscally responsible and are one moment away from needing assistance.

This building is about branding our organization, putting everything in its place and making our lives a little easier than touching 223 pieces of furniture a day. But really, it's about the people. The bonds that are created with volunteers, the legacy that each of us as staff leave in this city and the lives that we change every single day that we are serving.

Our founder Marcia Van Ginkel started the Furniture Mission of South Dakota in 2003 on the precept that we would always serve clients with grace and dignity, and if we were to err on something we would err on the side of compassion. Since 2003 we have served 31,837 families. Here we are nearly 20 years later still Making Houses into Homes, creating the atmosphere and answering a calling to make sure that family dinners are happening at a dining room table, that bedtime stories end with being tucked into a warm and cozy bed and that these needs are being met without any additional stress of cost to a family.

The Furniture Mission of SD is asking you to join us in the Place of Grace Community Campaign.

The opportunity to Give to an organization that in 20 years has never asked. The opportunity to Grow not just a small organization but the people that live in our community and to brand the focus of Empowering each person who not only is a life changed through our mission but the mission of every non-profit team on the beautiful empower campus.
